# First Frost Hosta Hosta 'First Frost'

Plant Height: 12 inches
Flower Height: 16 inches

Hardiness Zone: 2a

Other Names: Plantain Lily, Funkia

## **Description:**

Ornamental blue-green leaves have a contrasting gold margin that fades to white later in season

#### **Ornamental Features**

First Frost Hosta features dainty spikes of lavender tubular flowers rising above the foliage in mid summer. Its attractive textured oval leaves remain blue in color with showy gold variegation and tinges of white throughout the season.

## **Landscape Attributes**

First Frost Hosta is a dense herbaceous perennial with tall flower stalks held atop a low mound of foliage. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a relatively low maintenance plant, and is best cleaned up in early spring before it resumes active growth for the season. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

- Mass Planting
- Border Edging
- General Garden Use
- Groundcover

## **Planting & Growing**

First Frost Hosta will grow to be about 12 inches tall at maturity extending to 16 inches tall with the flowers, with a spread of 3 feet. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. As an herbaceous perennial, this plant will usually die back to the crown each winter, and will regrow from the base each spring. Be careful not to disturb the crown in late winter when it may not be readily seen!

This plant does best in partial shade to shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.
